FINfloor

Creating your space.

The floor is a key factor in any interior design project because it will probably be the first big decision in the process of forging the personality and character of a room. That's why it will be the leitmotif of our tour of the various ambiances. The purpose of this catalogue is to provide inspiration through the decorative solutions proposed by **FINfloor** laminated flooring.

With **FINfloor** you will not only have a wide range capable of harmonising with any style, you will also have the peace of mind that comes from having chosen a high quality floor: strong, accessible and with all the advantages of installation, maintenance, durability...

Converting a room into a sanctuary, a bathroom into an oasis of peace or a kitchen and living room into the heart of the dwelling transforms a house into a unique and personal home. The transformation begins at the base: the floor, that reflects your personality in every room at the first glance. With this catalogue we invite you to discover the options for creating your space.

Inspiration Guide

Creating a space that transmits the personality and tastes of those who inhabit it is a challenge that design and decoration professionals face on a daily basis. The style, tones, textures... Each decision will mark the character of the environment from the same starting point, because the floor is undoubtedly the main feature of an interior design project.

The innovative and versatile **FINfloor** range of laminated flooring is designed to provide inestimable aid to professionals. Its wide variety of designs can be adapted to all styles and enable even the latest trends to be harnessed to advantage.

The various rooms that compose a home speak of the personality of the space as a whole. In the following section we invite you to tour them to discover the **FINfloor** collection.

Home

During the day we go out, work, attend to our commitments... But if there is one moment that we always look forward to with special satisfaction it is getting home, to the place where we can forget our worldly duties and relax in the intimacy of our own personal space, an intimacy reserved only for friends and family. No matter what our lifestyle, it is always reflected in the floor of our home.

Kitchens and bathrooms

Our lifestyle increasingly tends to integrate the spaces we inhabit. Current designs favour open environments that bring together the kitchen, dining room and living room into a single space that becomes the social heart of the home. Thus timber flooring is no longer limited to bedrooms and living rooms but our laminated floor extends to bathrooms and kitchens. This prevailing tendency contributes continuity to the overall design.

The interior design of the bathroom is becoming more and more important. This intimate space has been transformed to adapt to the new needs and rhythms of life. Energy efficiency, practicality, customisation and wellness are some of the essential criteria to create this private corner that helps us to renew our vitality on the one hand, and invites us to disconnect on the other.

Rest and relax

The bedroom is without doubt one of the most personal spaces in the home. It evolves and adapts to the changing stages of our life, beginning in childhood as a room that combines fun and relaxation. During adolescence it turns into a sacred refuge and finally it becomes the oasis where adults renew our energy face a new day. During each of these stages the room transmits our personality and style. It only takes a bit of imagination to make it into a comfortable, gratifying and unique space.

Contract

Today more than ever the personality of an establishment begins with its decoration. Shops, hotels and restaurants need a welcoming atmosphere that unmistakably transmits its own personality and that of its brand. A laminated floor is a key item to create an atmosphere that invites customers to repeat an experience that goes far beyond good service.

02

Why FINfloor?

02.1

SUSTAINABILITY

Wood as a sustainable, renewable and recyclable raw material.

Sustainable forest management.

Efficient

FINfloor is suitable for use with radiant heating systems.

A certificate that quantifies the impact upon the environment of the full life cycle of a product.

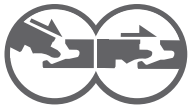

Our wood-based solutions contribute to the capture of greenhouse gases. 1m³ of MDF/ DM takes away 818 kg of CO₂.

02.2

INSTALLATION

Practical, clean and quick.

Quick

The most versatile and convenient click system on the market.

Angle or flat installation.

Sealed edges for easy sliding

Floating

FINfloor is the most convenient solution for refurbishment.

Removing the original flooring is not required (except textiles).

Dry

Free of glue, mortar and varnish.

No waiting time after installation.

02.3

MAINTENANCE

Finish resistant to stains and dirt.

Easy to clean

Simply sweep or vacuum.
Stains are easily cleaned.

Hygienic

Non-porous surface.

No varnish

FINfloor does not require polishing or varnishing.

02.4

RESISTANCE

Extraordinarily
durable.

Surface resistance

Class 33: For intense domestic and commercial use (EN13329).

Wear resistance (AC5).

Resistance to impact of heavy objects.

Does not discolour

Does not accumulate static electricity

Classified anti-static (EN1815).

Fire resistance

Euroclase Bfls1 (under EN13501-1).

02.5

SUITABLE FOR BATHROOMS AND KITCHENS

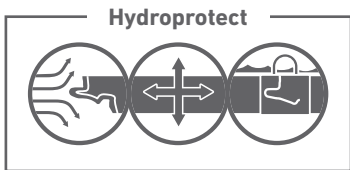

Can be used in wet areas
with guarantees.

Suitable for bathrooms and kitchens

Domestic installation of products without bevelling

Thanks to the unique hydroprotect technology in combination with joint sealant and perimeter silicone, this system ensures the floor remains watertight when splashes of water occur.

HYDROPROTECT

Tight joint

Joints resistant to opening and practically hermetic against moisture seepage.

Sealed edges

Sealed edges to prevent moisture penetration.

Dimensional stability

High-density fiberboard and dimensional stability.

03

Product Catalogue

Customisation is a worldwide trend and is also applicable to the interior design sphere. We increasingly seek a wider variety of options to find the combination that best suits our personality and tastes. With the wide **FINfloor** product range you have all kinds of options at your disposal to create a unique space that is yours alone.

JOINT SEALANT AND PERIMETER SILICONE

A solution suitable for kitchens and bathrooms.
Can be used in wet areas with guarantees.

Perimeter silicone

Neutral silicone designed to prevent water seepage under floating floors in kitchens and bathrooms. Especially suitable for filling the expansion joint between laminate flooring and bathroom walls, furniture or toilets.

Joint sealant

Joint sealant that blocks water seepage between planks. Enables laminate flooring to be installed in kitchens and bathrooms and prolongs the useful life of the same.

ENSURE THE DURABILITY OF THE FLOOR:

- 1 The plastic film built into FINfloor underlays protects the laminate floor against moisture or condensation from beneath.
- 2 Prolong the good condition of the floor joints by using an underlay with high load resistance to the transit of people. Silent Elite will prolong the useful life of FINfloor in optimum condition.

MAXIMISE THE SENSATION OF COMFORT:

- 3 THERMO underlay provides high thermal resistance.
- 4 Obtain a more muffled and agreeable footstep by using the SILENT ELITE underlay.
- 5 Minimise the noise transmitted to the floor below with the SILENT ELITE underlay.
- 6 The SILENT ELITE underlay is a certified solution for application to underfloor heating or cooling systems. Its low thermal resistance (TR) enables optimum heat transmission.

04

Colour and Texture chart

Texture: Wood Impression

TEXTURE

The ideal finish is applied to each wood to enhance its identity, to contribute a natural appearance.

Nature

Fine-grained and elegant, with a medium to high-gloss that gives the appearance of newly varnished wood.

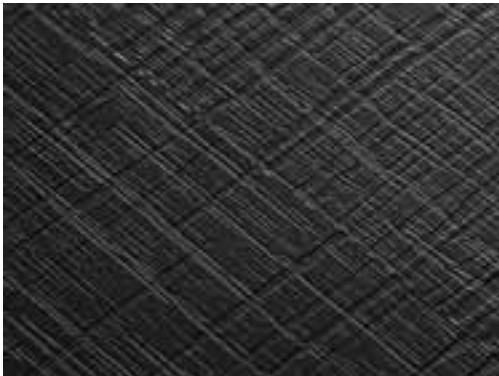

Dry-touch

Matte texture that provides a rough texture like natural, unvarnished wood.

Vintage matt

Extra-matte texture with a light wood texture.

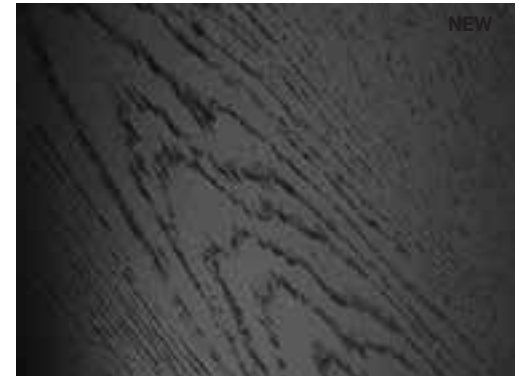

Saw cut

A balanced combination of two gloss grades that reproduces the classic makings of sawed wood.

Matt-oil

Extra-matte closed pore texture that transmits the effect of oil-based varnish.

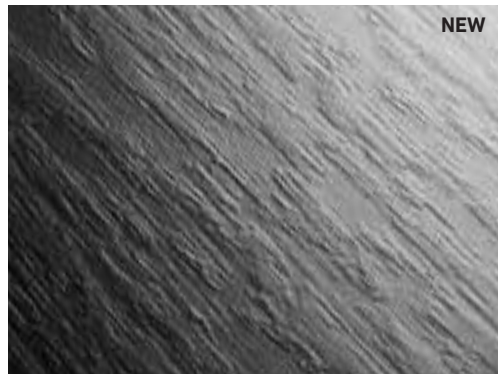

Wood impression

Synchronised texture and design faithfully reproducing the original materials. Collection Sovereign Oak, Luxury Walnut, Gaia Oak and Tango Ash.

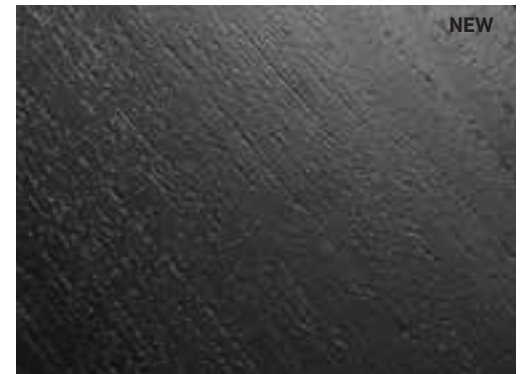

Rustic pore

Irregular, discontinuous wood grain and a gloss that emphasises its natural tone.

Urban

A texture with depth and character that combines the wood grain with a cement-based material.

Wood matt

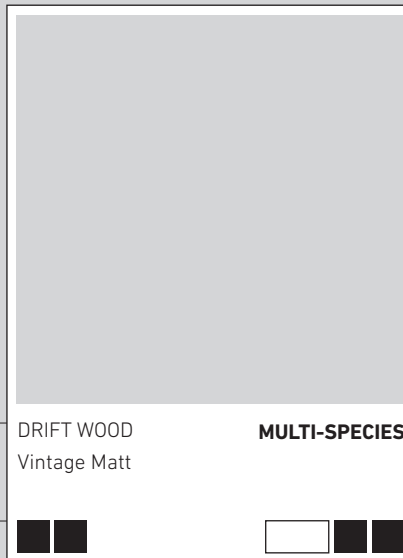

Matte texture with open grain.
